

This diagram shows an exploded perspective view of a container assembly. A rectangular container body (20) is shown with its lid (22) positioned above it. The container body (20) has a base (20a) and side walls (20b, 20c, 20d). A partition (23) is located inside the container, dividing it into two compartments. The partition (23) has a top surface (23a) and side walls (23b, 23c, 23d). A lid (22) is shown above the container, with a top surface (22a) and a bottom surface (22b). A latch (22c) is located on the bottom surface (22b) of the lid. The container body (20) also includes a front panel (24) and a rear panel (25). A handle (26) is attached to the front panel (24). A latch (26a) is located on the front panel (24).
